

Comprehensive Financial Advisor Checklist

Your financial circumstances are complex. Making, or avoiding, a move in one area may impact your goal to retire comfortably or leave assets to others. A comprehensive financial advisor works with you to identify your long term goals, analyze your current situation, make prudent recommendations and support you along the way. But, how do you find out if an advisor provides comprehensive financial planning services and is able to deliver prudent recommendations? With the growth of the industry, and the loose-usage of terms like comprehensive financial planning, Fee-Only and financial advisor, the National Association of Personal Financial Advisors (NAPFA) wants to help.

Use the checklist below to screen financial advisors. It will help you identify a prospective advisor's abilities and competencies. For an expanded tool to evaluate advisors, download the full Comprehensive Financial Advisor Diagnostic at www.napfa.org.
